### What is a false alarm?

False Alarm means an alarm signal activated through subscriber negligence or for reasons not of an emergency nature or when activated due to malfunction of any segment of the Alarm system.

- Are a nuisance to you and your neighbors
- Make your security system less reliable
- Make you reluctant to use your system

### False alarm prevention

False alarms are costly and dangerous because they divert police officers from proactive crime prevention efforts. They also delay response to calls that may be true emergencies.
